

## Prototype-Outline

Core idea of the intervention
To what problem/need are you responding? Who has this need and how does it show up?
Activity/course of intervention (action steps)? Who is responsible? Who is involved?
Describe opportunities to implement? Who, when, where, context?

How will you know/judge success/failure?	
What can be learned from it (positively & negatively)?	
How are course and outcome monitored, documented and evaluated?	
	t?
